## ExamView® Assessment Suite

**Find textbooks that work with ExamView® through TitleTrack.**

ExamView® Assessment Suite is provided to educators with more than 8,000 textbooks from over 65 leading publishers, so chances are it's already in your classroom. With Assessment Suite you receive publisher content that is fully compatible with our CPS™ student response systems, so you can integrate our technology with no back-end work, and without writing your own questions. Because CPS™ and ExamView® are from eInstruction, only our technology can integrate this seamlessly. No other response system can.

### Assess, Track, and Analyze

Research shows that the ability to frequently assess, track, and analyze student comprehension is essential to ensuring students' success. eInstruction's ExamView® Assessment Suite makes it easy to create, administer, and manage both formative and summative assessments to make it easier to assess student performance frequently.

With ExamView® Assessment Suite you can customize questions and automatically align them to state and Core Curriculum State Standards. Also, grade tests through eInstruction's® student response systems and track progress and generate reports, all in one program.

**Test Generator**—create assessments, quizzes, study guides, and worksheets using multiple question formats, pictures, tables, graphs, charts, and other multimedia elements. Assessment Suite works with CPS™ for real-time results.

**Test Manager**—collect results and generate comprehensive reports in minutes. Manage class rosters and automatically collect performance data from the school network to analyze student results and identify areas of concern.

**Test Player**—students can take tests and view study guides over the school network.

### Automatic, Seamless Integration with CPS™

Because ExamView® is from eInstruction, only eInstruction's CPS™ student response systems are designed to be completely and automatically compatible with ExamView®. Only eInstruction can offer seamless integration, automatic import of questions and answers, the sharpest image quality, and absolute flawless tracking capabilities.

In order for anyone else's response systems to become ExamView® compatible significant amounts of time must be spent preloading or changing answers, content, and reporting capabilities. eInstruction's automated ExamView® compatibility saves educators tons of time during lesson preparation and ensures you won't lose any images, publisher test banks, or data during assessment and grading.

**No one else can guarantee full compatibility with ExamView®.**
